

Behaviour & Safety Discussion 4th March 2015

Held between Mrs B. Paddey (chair of governors) and eight KS2 children

Q1: What do you think about the standards of behaviour in school?

- Good; more good than bad
- Teachers are strict but not too much so they are fair
- Teachers give warnings when they see bad behaviour, but after one or two warnings it will be marked on the board
- No one runs in the corridors

Q2: What helps you behave well in school?

- Dojo points
- Rewards – it makes you try harder
- If you behave well then you can get an end of term treat such as seeing a movie or an Easter egg hunt
- The chair and vice-chair of the school council
- Playground leaders have been disbanded because there were not enough volunteers because of difficult situations in the playground putting stress on the leaders
- Prefer to have a democracy with everyone being able to give their views rather than a head girl/boy

Q3: Do you feel safe in school?

- Yes – everyone feels safe in school
- Sometimes dogs come through the hedges and people follow to try and get their dog back
- Happy about the new gates; stops people climbing over

Q4: How well do you think bullying is dealt with in school?

- Sometimes someone gets picked on – a particular child was mentioned but the other children all chimed in to say that this child had done some really bad things and brought it on themselves
- Would tell adults or teachers if there were a problem
- We worry about snitching on others – not just tales but when a teacher needs to know something important about someone
- Mrs Cole deals with anyone who bullies others
- People sometimes do things wrong but are dishonest in owning up to their actions

Q5: How do you keep yourself safe when you use a computer or iPad?

- No social sites are allowed in school
- Pupils are not allowed to post anything on the website in school although they may help a teacher to post information
- Sometimes people write things down on the iPads and then blame another class for writing it
- Making sure you don't talk to anyone on Sumdog (a maths website)

Q6: If someone said something horrible about you on Facebook or Snapchat, would you tell someone?

- We don't use Facebook (all children)
- If there were something horrible I would delete it and not let it bother me but if it happened again I would talk to them about this
- I would show someone I trusted
- I would tell my parents and if they couldn't stop it they would get the police

Beverley Paddey, Safeguarding Link Governor.
